Our auditors have an opportunity to work on an array of audits across the state and take pride in the role they play helping governments work better, cost less and deliver higher value.

We ensure each auditor is given training, mentoring and coaching through their professional development plans to ensure their knowledge and skills advance in line with their aspirations. Within the first year of their career, an auditor can expect to complete several in-training promotional steps. Our formal in-house training program supports continued professional development.
