HEALTH CARE MANAGEMENT CERTIFICATE

Program highlights

Saint Martin's Health Care Management Certificate program is designed for health care professionals who are interested in advancing into the managerial ranks of the health care industry

- Emphasis on enhancing skills in operations management and understanding health care policy and regulation, with a firm foundation in ethical principles and decision making.
- Students complete their certificate by applying skills acquired in the classroom in a supervised Health Care Management Practicum experience with a local health care organization.
- The certificate program consists of 15 semester hours and can be completed by taking four 8-week classes between late August and early May followed by a summer practicum.

Program completion

Once completed, students will be able to manage healthcare resources for an organization which include personnel, equipment, supplies, services, etc.; introduce and reinforce specific skill sets needed across the healthcare industry; identify, analyze, and manage healthcare resources in organizations through projects with partners; effectively and efficiently manage an organization's resources.

Career opportunities

The Health Care Management Certificate program prepares students for leadership careers in this complex and ever-evolving field. According to the Bureau of Labor Statistics, by 2024—in less than five years—nearly 2.5 million new healthcare jobs will be created in the U.S. Healthcare leadership roles exist in both traditional and non-traditional settings and industries including: healthcare provider organizations, consulting roles, government agencies, law firms, insurance companies, correctional facilities, extended care facilities, pharmaceutical research, information technology, medical software, and healthcare informatics and analytics.

Admission requirements

In order to be considered for admission into the Health Care Management Certificate program, applicants must meet the following requirements:

- A Bachelor's degree from an accredited college or university.
- A minimum undergraduate GPA of 2.75.
- Proof of English proficiency for international students.
- Certificate holders wishing to enroll in the MBA program should refer to the School of Business admission requirements.
